

Preventing Euthanasia & Assisted Suicide

VICTORIANS – CONTACT YOUR MPs NOW!

In December, Premier Andrews announced that his government will move to develop an assisted suicide and euthanasia bill during 2017. It is incredibly important that All Victorian MPs hear a clear NO from Victorians NOW!

Please make your voice heard in opposing euthanasia & assisted suicide.

Please write to your local District and Regional MPs.

Points to consider in your letters:

- Make no mistake: euthanasia is killing; assisted suicide is helping someone to kill themselves!
- No safeguards can make a bill totally safe
- Killing people is not a medical procedure
- Dignity does not come in a hypodermic needle
- Doctors and even psychiatrists admit that it can be hard to diagnose depression — who are we kidding here?
- No bill can stop 'doctor shopping'
- We need better access to better care for everyone!

Please write or email your District and Regional members of Parliament from the listing on the HOPE website ([CLICK HERE](#)).

If emailing, don't forget to give your full postal address in the body of the email.

Please also encourage your friends to get involved by going to the HOPE website at www.no euthanasia.org.au then clicking on the [TAKE ACTION](#) menu item.
